EXPERIENCE

IT Support & Network Security Engineer Intern
2022 - 2023
eProcess Consulting Limited
Lagos, Nigeria.

Really Great Company
- Provided first line client support, troubleshooting computer software-related issues for clients and team members.
- Established and managed a comprehensive IT inventory system.
- Configured and managed web policies using Sophos Firewall to enhance productivity by restricting non-work-related browsing during work hours.
- Learned to work efficiently and manage the Sophos Firewall and Central security solutions.

Intern
2021 - 2021
Zuri internship
Remote

Really Great Company
- Completed HTML/CSS/JAVASCRIPT related tasks
- Frontend development
- Collaborated with a team to build a WebApp to help find pharmacies with specific drugs around you

EDUCATION

Bsc Information Technology
09/2023 - 08/2024
Middlesex University Mauritius
Mauritius

Professional Diploma in Information Technology (Software Engineering)
2021 - 2023
NIIT
Lagos, Nigeria.

PROJECTS

Responsive Porfolio Website

Built a personal portfolio website using React Js
🔗 (https://dze-maestro.netlify.app).

Price Comparison Website

Built a Price Comparison Website of books using Java, multithreading, Selenium, Spring, Hibernate, JUnit, Express.js, MySQL, HTML, CSS, and JavaScript.
- Users can search for books by title or keyword on the website.
- Search results display books matching the search term, and users can click on the desired book.
- Users can then view a brief description of the selected book along with its prices from different websites.

TodoList WebApp

Built a TodoList app using HTML CSS JAVASCRIPT
- Create task
- Delete task
- Update task
- Filter tasks completed or uncompleted tasks
- Save to local storage
